**OYSAN Top Story:
What 'Futobol'-ers
Can Learn From This Year's Superbowl**

Very simply: POSITIVE THINKING. The Giants, this year's SuperBowl Champions, had a 7-7 start this season and against the odds, not only made it to the SuperBowl, but also won it.

In all sports, there are challenges to overcome and obstacles to hurdle. Even though the power of positive thinking and determination are often overlooked when determining who the "favored" team might be... they are, in fact, the reason that the underdog DOES win sometimes. Often, heart, and not necessarily skill-level, do prevail.

Positivity from the sidelines, from the bench, and from your teammates can instill not only confidence, but build a love for the game... which will eventually translate into wins. Just ask the Giants.
