

ODP Weather Cancellation Information

If a serious weather situation is under way, we will cancel any scheduled practices ahead of time. If there is some question on the severity and timing of a storm, we will delay the decision as long as possible. If a late cancellation is warranted, the notification will be posted on the front page of the web site, e-mails will be sent to the respective age groups, and phone calls may be included in the notification process.

Because winter weather impacts different parts of the state in unique ways, each family should make their own determination on what constitutes safe driving conditions during a storm.
