

## Membership Requirements

The criteria for becoming a State League member (clubs enter-and then register their teams) are:

- Competitive history of the club
- Competitive history of the team(s)
- Credentials of the club administrator
- Credentials of the coaching staff

These are some of the specific information related to joining the league-some other details are the general past history of the club (previous league membership in particular)-growth intent of the club (if starting with 1-2 teams what is the long-term goal for future teams).

The intent of the SL is to provide a place for those clubs that are committed to the development of players seeking higher levels of competition.

The SL is currently comprised of two divisions at most ages with the ultimate goal of providing a truly elite division for the best teams in the area and to do that requires that members are able to support this by having teams able to compete at that level.

Additionally:

1. There is a bond required of each club (\$500) upon acceptance
2. The criteria above is used to determine acceptance.
3. The information to register a team(s) will be provided upon acceptance (there are certain forms related to club/team contacts, field address, etc. that will be requires among other things)
